In the article titled “Soil Loss Assessment in Western High Atlas of Morocco: Beni Mohand Watershed Study Case” [1], there was an error in equation (5), where a (+) symbol was mistakenly included. The equation should be corrected as follows:

$$LS = \left( \frac{L}{22.13} \right)^m (0.065 + 0.045S + 0.0065S^2). \quad (5)$$
